Subject: Microsoft Settlement

Judge Kollar-Kotelly,

I urge the court to bless the DOJ/Microsoft settlement. It's impossible to please everyone with a settlement (including Microsoft biggest competitors). Both sides seem happy with the compromise. I think the courts dictating which features are allowed in a product will spell disaster for our economy. It's time to forget this mess and stop destroying one of America's best corporations.

Sincerely,
Matt Hickey
Glastonbury, CT
